BAGS BY PACK ART

Professional Paper Bags

Why Pack Art Bags

Anyone can make a paper bag. All you need is a simple piece of paper, a cord and some glue. However, it is not enough for us. We know that you need to focus on each production stage in order to win customer's satisfaction and implement every, even the most sophisticated design.

Our traders will offer you products tailored to your needs and budget, advise on the type of paper, its surface quality and accessories. While graphic designers will refine the technical parameters making the design ready for production. This is how we will create a bag that combines elegance, functionality and precision of workmanship.

Why Paper Bags

Our bags stand out from among others, and at the same time are characterised by practicality and durability. Our customers representing different trades and countries know that. Their invention combined with our commitment allows us to manufacture bags which everybody likes and which everybody can have.

For us, a bag means the attention to detail, proper paper stiffness, adjusted length of the cord handle, print of the highest quality. Paper bags are more elegant and prestigious than their foil equivalents. Frequently, they are even used as promotional bags manifesting the good style and care of the image of the company. We make every effort to always maintain it at the highest level.

Our focus

It is easy to accept an order - one telephone conversation, e-mail or fax is enough. The issue is becoming complicated when it comes to executing it and the customer pays particular attention to quality and timeliness. For such customers we have developed a 4-stage quality control process for performed orders. We handle over 1000 orders annually, and manufacture 20 000 bags daily. The effects of our work are appreciated both by Polish companies and foreign business partners. The production for European customers amounts to over 50% of our output. Quality is the pride of our company which has already been appreciated for many years.

All trademarks included in this catalogue are reserved and cannot be used in full or in part without the written permission of the owners. All bags presented in the catalogue are original products of the company Pack Art Bags spó ka z ograniczon odpowiedzialno ci spó ka komandytowa

Kraft Classic®

A bag most frequently selected by customers. Valued due to the quality of workmanship, perfect print and durability. Made of paper of lower grammage.

Possibility of full personalization with offset printing from 500 pcs.

Kraft Plus® Prestige

xxx xxxx xxxxx xxxxx xxxxx xxxx xxx xxx xxx xxx xxxx.

Xxxx xxxx xxxxx xxxxxxx xxx xx xxxx xxxx xxxx xxxxxxxx 500.

Kraft Classic® Ice

A novelty among bags on the market. The bag is made of the transparent paper which fully shows the outline of the product placed inside.

Possibility of free personalization with offset printing from 500 pcs.

Kraft Plus®

Advertising bags with twisted paper handles are most commonly used. They are perfect for holding clothes, footwear and cosmetics. 100% ecological bags - environmentally friendly.

Possibility of full personalization with flexographic printing from 10000 pcs.

Kraft Pack®

A series of bags without the upper overlap. A glued insert along the entire width of the bag provides rigidity. Kraft Pack bags are intended for holding products of small weight and volume.

Possibility of full personalization with offset printing from 500 pcs.
